What is Metaverse?

Metaverse is a mirror world or virtual world, which transforms our physical lives into digital. Technically metaverse is a parallel realm, the next version of the internet, the new way approach for information access, and the digital interaction. We are currently in a 2D data world, where we are using Youtube, Google, Facebook, Instagram, games, LinkedIn, and other applications. Metaverse will provide an interactive, distributed, ubiquitous environment, which will change everything that we are using now.

Due to the advancement in technologies like 5G, 6G, AI chips, more RAM, more data storage, more power, Artificial Intelligence, Edge computing, sensors, etc., will make the metaverse into reality.

Are Internet and Metaverse Different From One Other?

Internet and computers create a big revolution which creates a new internet economy. We all know how big the internet economy is now. Likewise, Metaverse is the next version of internet and VR devices, haptic suites are like computers that will create a new metaverse economy, which is unimaginable.

Humans can create a digital avatar, live, play, work, do business and earn in the metaverse!

Arkycia – A Real Metaverse

Arkycia is a **Cosmocracy Metaverse**, which is a mirror and virtual world, where users can create avatars, work, play, do business, earn money, etc. It's a metaphor of the real world.

Arkycia is a Cosmocracy world, one world one nation, where there is a centralized government that rules the world and the countries. The countries will have their own political structure, there will not be any boundaries between countries. We are eradicating the inequality between countries.

Arkycia Metaverse provides users to create and share content, create virtual e-commerce stores, create events, virtual theatres, digital vehicles, virtual institutes, virtual sports, social networks, Virtual business profiles, virtual stock exchanges, and more.

Arkycia Metaverse will have real-world maps and buildings, Governance NFT (Political Positions), Functional NFT (Digital NFT assets which generate passive revenue), NFT, and ARK tokens.

Cosmocracy Metaverse - Arkycia

A Multi Trillion Dollar Virtual Economy

Arkycia, a first of its kind hyper realty metaverse platform with futuristic features. Arkycia, a digital version of earth which was created for the real purpose of decentralization & digital currency. Arkycia is a Cosmocracy world, one world one nation, where there is a centralized government that rules the world and the countries will have their own political structure, there will not be any boundaries between countries. We are eradicating the inequality between countries. The political positions like President of America, will be an NFT and anyone can buy and sell these political positions for 193 countries, The people those who are having the positions will rule the Arkycia cosmocracy world. Arkycia is an digital clone of the world where you can buy properties, buildings etc., and name it as you like. Unlike other metaverse projects, Arkycia is having a strong solution to create a Trillion dollar virtual economy .

Arkycia will have its own tokens, the tokens can be used to buy Arkycia properties and for all transctions inside Arkycia

Virtual Politics

Own a Virtual Politics NFT
and rule the world

Virtual Lands/Properties /Assets

Own a virtual land in Arkycia
and start earning

Arkycia Tokens

Own Arkycia tokens to buy, sell,
in Arkycia metaverse

Political Positions – Decentralized Governance NFT

" Just think about this – You are the first Virtual President of the USA in history "

AMAZING RIGHT !!

Unlike other metaverses, Arkycia metaverse will be a parallel realm, where we are implementing a cosmocracy government. Users can own the Political Position NFT, which will play a huge role in the Arkycia metaverse.

Arkycia is a unique metaverse project, one of its major features is Virtual Politics NFT. Arkycia is a cosmocracy nation, where Arkycia has one common government for all countries. **One world, one nation.** Arkycia is the future world. Arkycia will have its own political structure which is similar to the physical world, users can buy a political position, and they rule the world. Each position will be an NFT and it's in a bidding model.

Arkycia Real-estate: Metaverse Land/ Building NFT

Arkycia is built over AI and mapping technologies, which directly linked with the physical world, we are trying to built Arkycia as a Virtual earth with huge imagination. We learnt a lot from the existing social networks and other virtual world projects where it's not connected with our real world, so we all will lose interest in time. So, we are building Arkycia which is a virtual world that we are expecting, and it will have more entertainment and business opportunities. Antilla will be main stream business metaverse with a goal of 1 trillion virtual economy.

Users can buy a property or a land, property or a business in Arkycia, unlike other metaverse, property is not just a realestate NFT, the property will have interiors, we will provide user friendly web based interior building tool, either you can use pre built interiors or you can design your own and you can sell, rent or lease your residential or commercial buildings. Arkycia will drive the virtual economy by nature.

We are building this metaverse in a different way, Eg: if you are buying Liberty statue, you will have the exact statue as you looks in the real world. we partnered with more than 500 3D agencies globally to build 3d VR version of all buildings, they help you to develop the interiors which will help you to generate revenues. Unlike other metaverse projects, we are not building dummy digital assets, you are getting a real digital assets with revenue generation. More surprising announcements will be available in the upcoming months.

To become a citizen of Arkycia metaverse, users need to buy digital land. Users can own land, building, or various digital assets in Arkycia. Arkycia Metaverse lands are NFT which are unique and cannot be forged or duplicated. Buy a virtual land, build anything with our free tools, rent & sell your NFT assets. All the metaverse land or assets are stored in the ethereum blockchain as NFT using ERC-721 protocols.

Arkycia Avatar

Each user will have an AI agent, which will learn about the user in all aspects, behavior, playing styles etc., after 2- 3 years, the user character will become a AI meta humans, which will live in the metaverse autonomously. It's a clone of you, it will be an digital version of human which lives in meatverse. It's like a TRON movie.

Metaverse Social

A safe, secure, and trustworthy world monitored with AI, where we eliminate harassment or any unwanted behaviors in Arkycia Metaverse. We are building the metaverse with more responsibility and user privacy is our highest concern. Metaverse will not sell or share any user's social behaviors or personal details with anyone. Engage and enjoy social gatherings, Explore new places with your friend, and what else to say? Have a metaverse date with your girlfriend.

Metaverse Home

Everyone has a dream to live in a beautiful home with all amenities, but it seems to be impossible in the physical world. Come, let's build a virtual world to fulfill our dreams. Buy land in Arkycia and build your dream home like never before. Invite friends to your home, have parties and have more fun.

Metaverse Office

Companies can open a virtual office and invite their employees to work over there. They can create their unique office infrastructure using our user-friendly tools or they can use the readymade office models. We are partnered with development companies globally, to create your beautiful office.

Metaverse Meetings

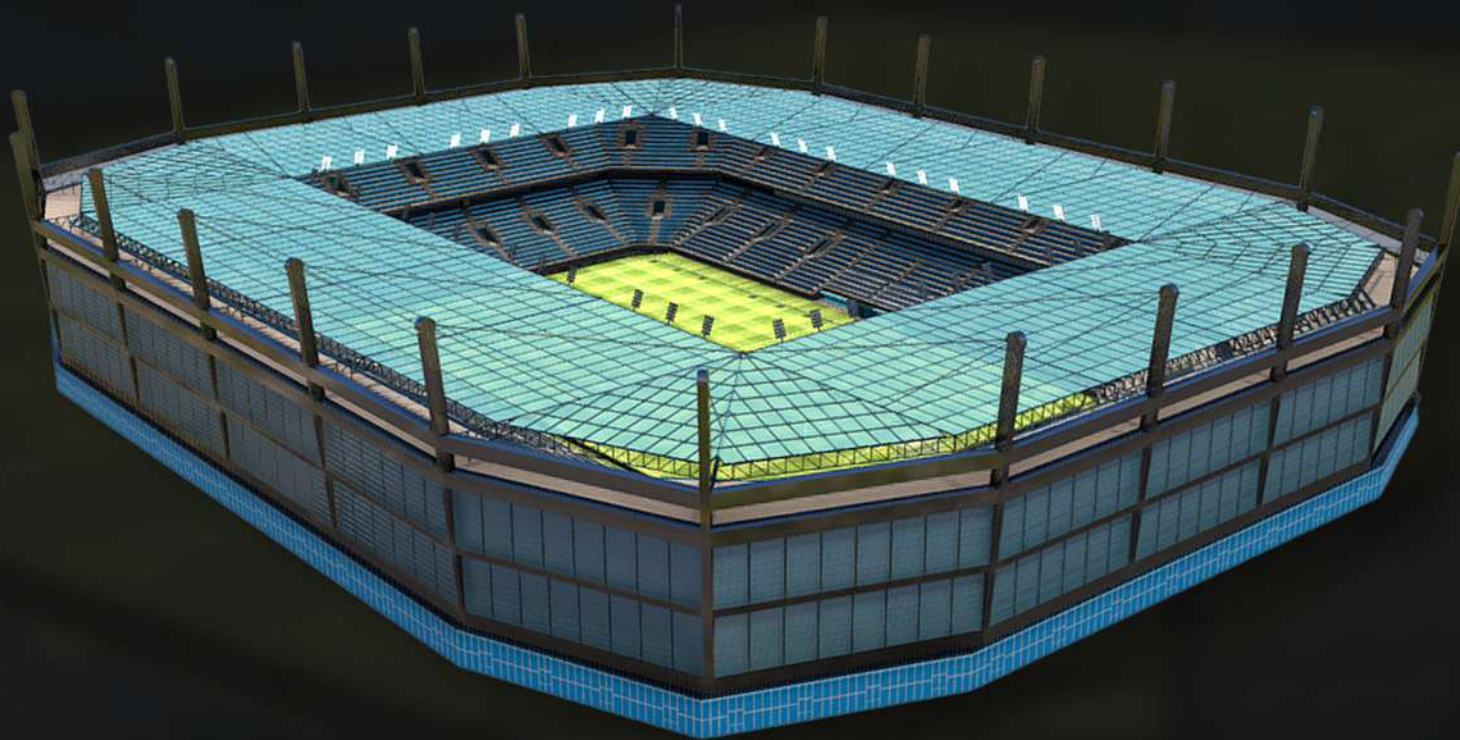

Virtual Meetings will create a new perspective for business meetings. A Metaverse will typically create a greener world, by reducing carbon emission, so we all have to adapt it to protect the earth. A new kind of experience and data visualization will make Metaverse meetings more adoptive and more productive.

Arkycia Sports NFT

International Premier League – Cricket, Football, Volley Ball etc.,

International Premier League is an Functional NFT in Arkycia, Users can buy a team in International Premier League. This will generate a revenue and increase the value of the functional NFT. International Premier League is for the following games, Cricket, Football & Volleyball. Soon we will add more games.

Metalympics

World's first digital / virtual Metalympics, Metalympics is one of a major creative event in Arkycia. There will be summer Metalympics, Winter Metalympics & Youth Metalympic Games. 206 countries will participate in Metalympic games, The user can own one more sports as NFT in a country. As Metalympics is as Functional NFT, the user those who are winning in Metalympics will get prizes. Participate in the Metalympics and win prizes. Metalympics event will generate more business and entertainment in metaverse.

Metaverse Stock exchange NFT

Arkycia users can start a company, and can launch an virtual IPO and list their stocks in the virtual stock exchange. Arkycia citizens will invest in the IPO and do stock trading in ARK currency. There will be 100 stock exchanges, users can buy the metaverse stock exchange as NFT. We call its as Functional NFT, which provides huge passive income. For every trading the stock exchange owner will get a transaction fee.

Metaverse Banks

Users can buy a metaverse bank NFT. Arkycia citizens can open a bank account and deposit their tokens in the bank. They will get a interest for their deposits. ARK token is arkycia 's metaverse token, it will be used for all internal transactions. Based on their business transctions, they can get loan in the banks. All the business transctions needs to be happens via bank, the bank will act as a escrow between the buyer & seller.

Metaverse Business Profile

Users can create a business profile with 1000 ARK tokens. The business users will get a rented location in metaverse, its like a virtual portfolio, where they can interact with their customers/ clients. They can add their service details, videos and other information about their business. It's like a virtual 3d version of Google my business & websites with live chat.

Arkycia Startup Fund

Arkycia will invest 10 Billion dollar in startups, those who starts their company in Arkycia Metaverse. The startup business needs to provide jobs for the Arkycian's. This will accelerate the growth and adoption of Arkycia into a different scale.

Arkycia Credit Score

Events, Exhibitions & Conferences

Games & Casinos

Metaverse Ecommerce

Arkycia Metaverse provides an immersive ecommerce experience in its virtual world. Users can create shopping malls, shopping centers, super markets etc., Users will get a new type of buying experience. The ecommerce will be linked to realworld oracle, so the things ordered in virtual world will reach you in real physical world. Arkycia metaverse will provide ready made shops and tools to create your virtual ecommerce, AI chat agents will interact with the users and give assistance. We are in discussion with global delivery partners for ecommerce delivery.

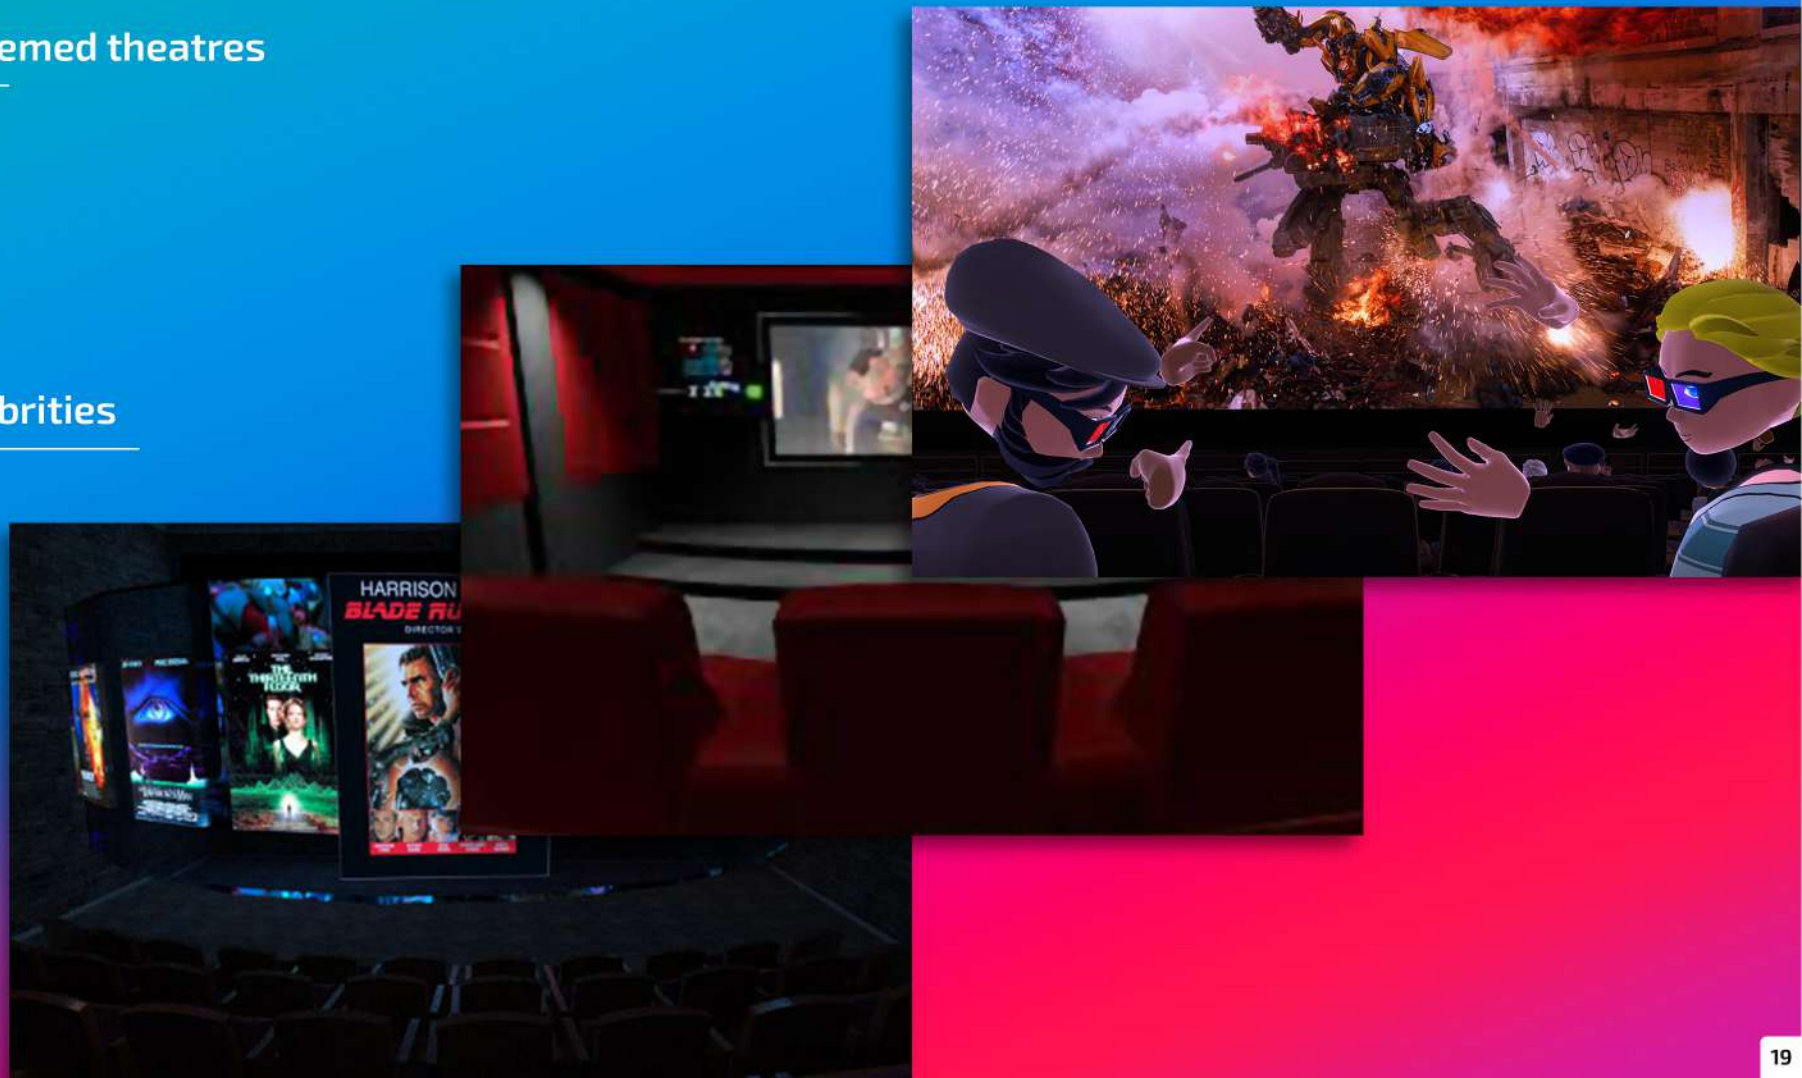

Metaverse Theatre

Enjoy a movie screening in virtual reality from your sofa : alone, with friends in your own private movie theater or with a worldwide audience.

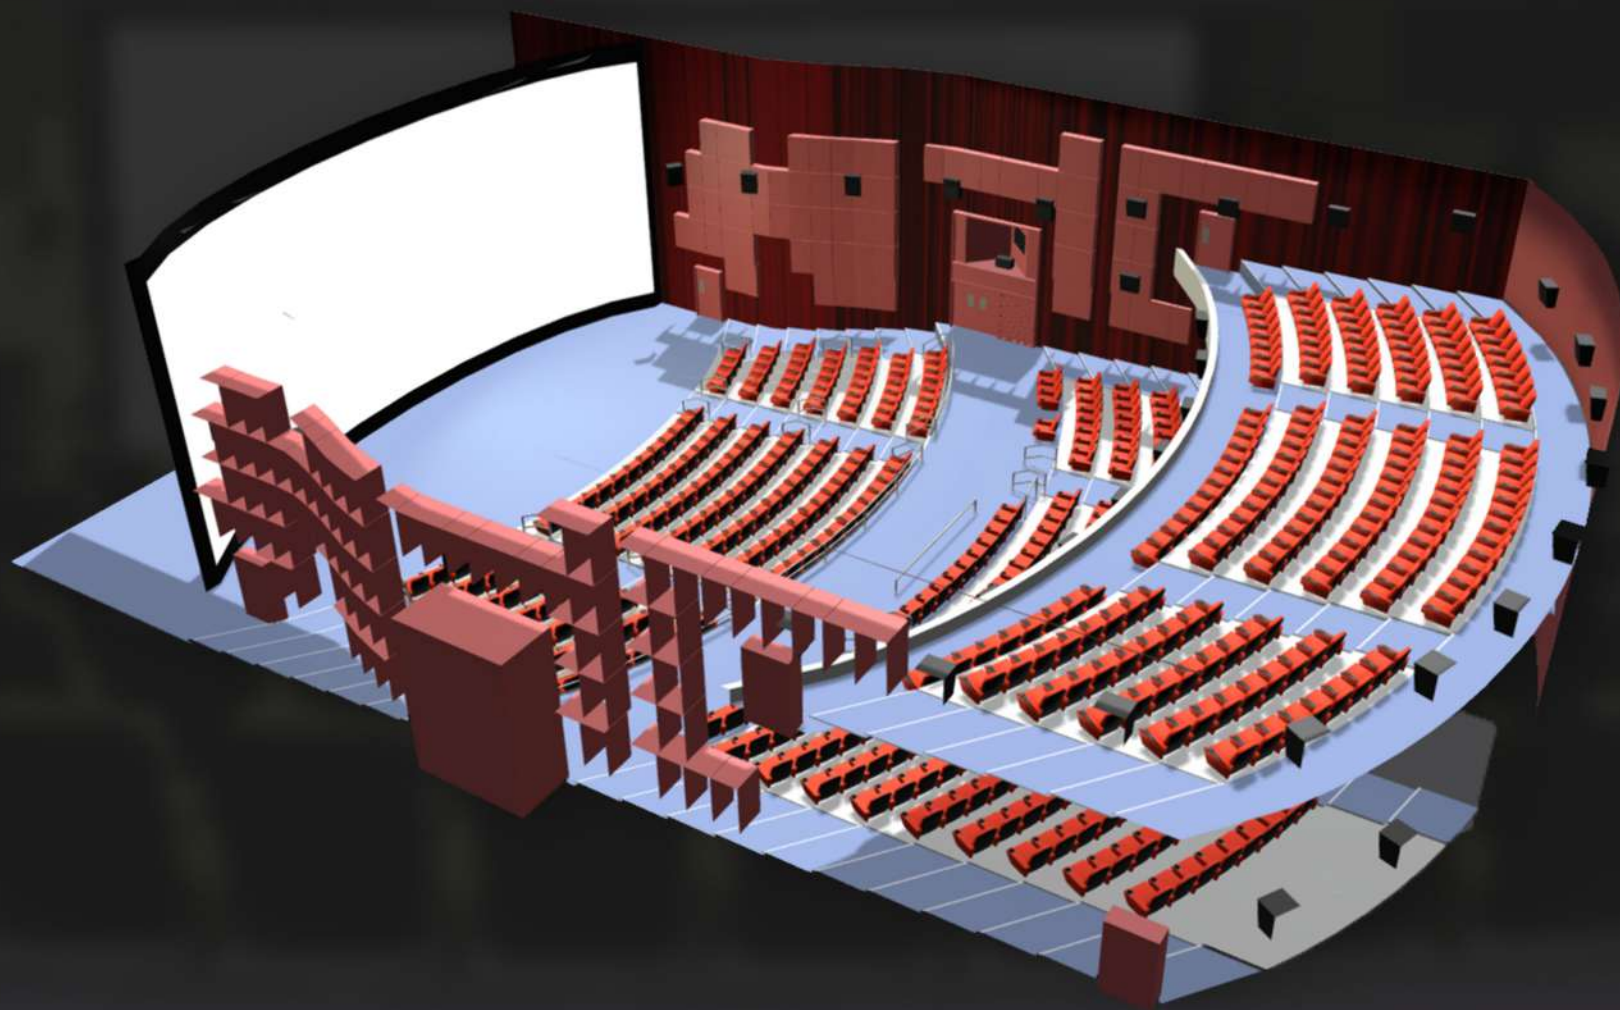

Personalized/ themed theatres

Private theaters

Movies with celebrities

Metaverse Movie NFT

Arkycia Suite

Without a VR suite, metaverse will not go in mainstream, we are developing a light weight state of the art VR suite with Haptic feedback and conductible fabric weaved with temperature shape memory alloys which will use haptic feedback to give real pressure in the specific spot.

Arkycia Gloves

Arkycias goal is to build a Virtual economy, so we are building necessary hardwares to achieve that. VR gloves with haptic feedback will revolutionize the ecommerce industry, remote services etc., We are partnering with developers to develop more applications based on VR gloves

Arkycia Cube

The major breakthrough in Arkycia is the VR box, an advanced engineering system which helps you to live in the metaverse with all possibilities, you can feel the environment, instant relays with more precise movements. VR Box will open new gateway for the entire metaverse. We are building the VR Box as an open system, so that it can be used for any metaverse.

Use Case Scenario 1 :

User can buy an empty land, can create a shopping mall with our tool, do business, or rent or sell the shopping mall.

kitchen
BedRoom
ChildRoom
Hall

Use Case Scenario 2 :

User can buy an existing building, create the interior of the building with our tool, do business, or rent or sell the building.

Build Anything

Arkycia Metaverse provides SDK / API which helps you to build anything as virtual. Any kind of business, entertainment, education etc., can build VR applications for Arkycia Metaverse. Its like doing business in physical world, but without no boundaries.

Arkycia will create Metaverse business as main stream model. The way we work, the culture, environment will soon get change and we all will be in a new realm.

Creator tool

We are providing an extensive creator tool where user can create indoor interior, say a company can create their office interior, an event company can create their event interior etc., The tool is very user friendly with drag & drop features.

Development / Partnership Programme

We are partnered with VR & Game development companies who can help you to achieve professional designs and other integrations. The user can create the internal structure of the building easily without more technical skills.

There is a separate marketplace where users can sell their NFT's in the bidding model.

Arky Token

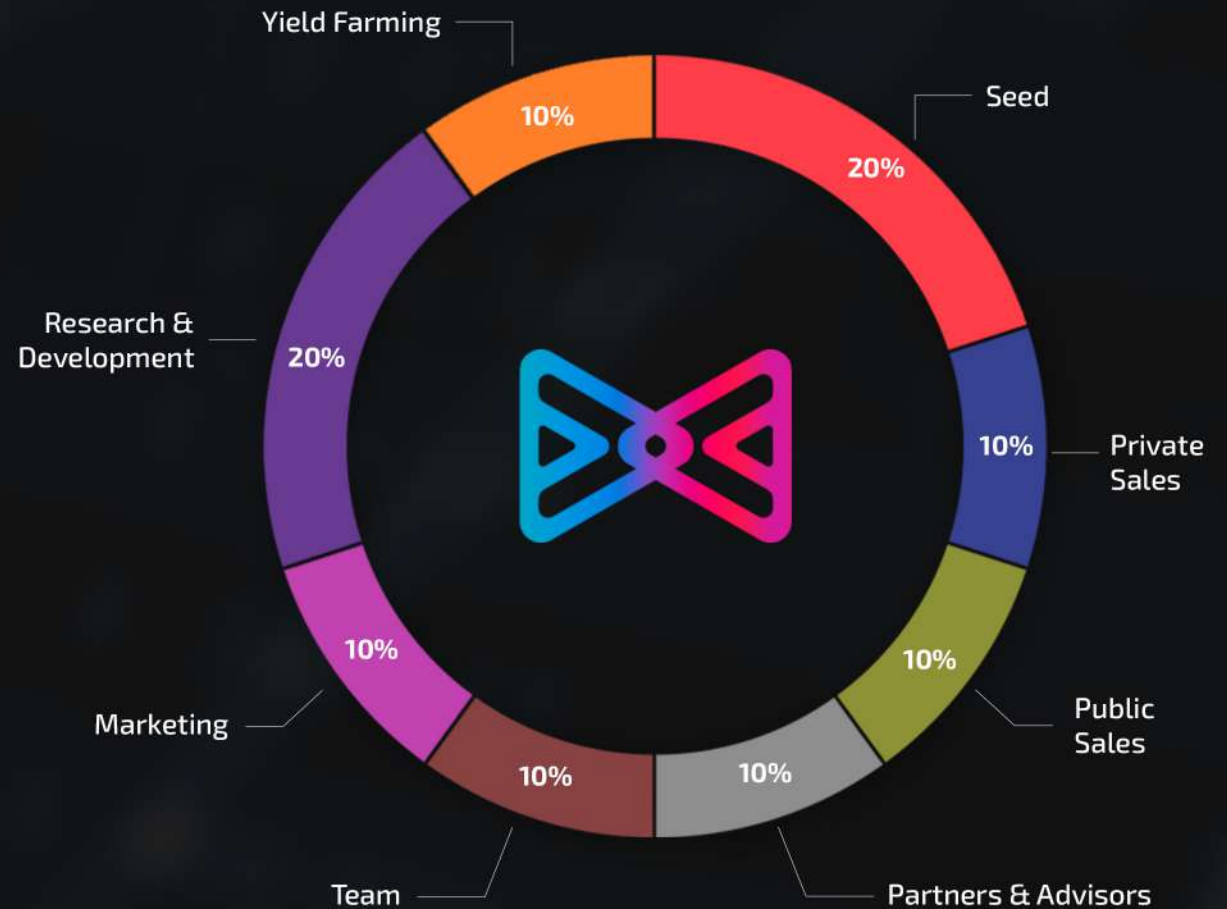

Arkycia Token is a utility token in Arkycia Metaverse. The business users need to have the tokens to run their business in Arkycia. All the business transactions inside Arkycia Metaverse will be done using ARKYCIA token. This is like currency in the real world. In other terms we can say Arkycia tokens value increases over a period and fetch you a real value.
